## Guidance notes

### for

## Overstamping & Registration of an EU Passport

ALL horses with an EU generated passport are required to be registered in a UK breeding book by 1<sup>st</sup> January 2021. American Miniature Horse Club Great Britain is the registered passport issuing office of the Miniature Horse Club of Great Britain. We hold the only DEFRA approved studbook in the UK for American Miniature Horses.

1. Your existing EU passport will remain valid after 1<sup>st</sup> January 2021.
2. You may also obtain a new AMHCGB 'SmartPass' passport. Return this completed form together with a completed **MHCGB Passport Application Form** and correct fee.
3. All vaccination records can be competently transferred into your new passport.
4. If you do not wish to have a new passport please complete and return this form with the correct fee for overstamping.
5. You may also use this form if your existing EU passport does not correctly recognise the breed of your American Horse.
6. All fees are a one off, lifetime registration fee.
7. All horses in the UK require a microchip before 1<sup>st</sup> October 2020. Ensure a microchip is implanted before returning this form and your passport.
